

# BUILDING WHAT'S NEXT TOGETHER

## MEMBER CONSTRUCTION UPDATE

FOND DU LAC FAMILY YMCA

### MEMBER CONSTRUCTION UPDATE

7.3.26

Our Capital Campaign renovation with the Boys & Girls Club continues to make exciting progress, and we're pleased to share the next phase of improvements that will further enhance your YMCA experience for years to come.

#### **The Lobby is Taking Shape**

If you've visited recently, you've likely noticed that the entrance and lobby are now open without construction walls. This milestone allows members to enjoy a more open and welcoming arrival experience while we complete the remaining finishing touches.

The final installation of the permanent Welcome Center railings and turnstiles will be completed in the near future, bringing us one step closer to the finished vision for this space.

#### **Walking Track Construction Begins July 6**

Beginning Monday, July 6, the **Family Gym will temporarily close** as construction begins on one of the most anticipated features of our expansion, a new indoor walking track overlooking this gym.

This investment will provide members of all ages with an additional option for walking, fitness, and year-round activity while expanding opportunities to stay healthy and active.

#### **Construction is anticipated to continue through mid-October.**

We understand the Family Gym is an important space for many of our members. Throughout construction, our staff has worked to accommodate as many programs, activities, and open gym opportunities as possible within the Community Gym.

#### **Beginning July 6:**

- **Community Gym Schedule:** A revised gym schedule will be in effect July 6–August 16, with an updated schedule beginning August 17.
- **24/7 Access - Pickleball & Open Basketball:** During 24/7 access hours, the Community Gym divider curtain will be lowered, allowing 24/7 members to enjoy both pickleball and open basketball.

## **Traffic Pattern to Access the Wellness Center**

To safely accommodate construction activity, the **south stairwell located in the locker room hallway will be closed beginning Monday, July 6.**

Please use the **north stairwell** or the **elevator**, both near Racquetball Court A, to access the Wellness Center during this phase of construction.

These traffic adjustments help ensure a safe environment for members while allowing construction to move forward efficiently.

## **Racquetball Court B - Temporary Closure**

Beginning **Wednesday, July 8**, Racquetball Court B will temporarily close and be used for equipment storage during construction. Items normally stored in the gym closet, including equipment used for **FOREVERFIT classes**, will be relocated to the racquetball court and accessed by staff as needed throughout the project.

## **Thank You for Your Patience**

We recognize that construction requires flexibility, and we're grateful for your patience and understanding as we continue making improvements throughout the facility.

Every phase of this project is designed with our members in mind, creating more welcoming spaces, expanding opportunities for health and wellness, improving accessibility, and enhancing the overall Y experience for our community.

Thank you for being part of this exciting journey. Your support and encouragement continue to make these improvements possible, and we look forward to sharing each new milestone with you as we build a stronger Y together.
